

# NATHALIE ZOGBI

PRINCIPAL (REPRESENTATIVE)

## BIOGRAPHY

---

Nathalie Zogbi is a principal at Imaginable Futures, who supports our investments, advocacy and strategic communications within Brazil.

Before joining Imaginable Futures, Nathalie was the co-founder of CO.LETIVO, a teacher residency program in Brazil that aims to bring equity and excellence to pre-service teacher development in the country. Nathalie was also a partner at SOMOS Educação, responsible for managing Colégio Anglo 21, the company's flagship K-12 school in São Paulo. She also worked within the company's M&A and School Operations teams.

In her tenure in education, Nathalie conducted an investigation on the drivers of extraordinary learning experiences, connecting research findings from the Science of Learning to school practices globally. As part of this journey, she visited over 40 schools in seven countries and mapped effective conditions for learning, curricular design choices, instructional strategies and support systems beyond the classroom. Nathalie started her career in investment banking, before making her way into education in search of meaning and social impact.

Nathalie received a Bachelor of Science in Economics from The Wharton School at the University of Pennsylvania.

Above all, Nathalie loves being a mother to Nina and (re)learning about the wonders of the world from her.
